Fall Council Report

Zone F Kinettes

The three Kinette Clubs in Zone F are London, Simcoe and Tillsonburg. They all have great strong members and seem to have good plans for their upcoming year. I have spoken with each President and they all seem more than capable of running their clubs and guiding them into a very successful year.

MEMBERSHIP

The membership goals for the Zone F this year are not just focused on gaining new members. I have heard from many in our Zone that they would like to also focus on retention and loyalty.

There have been some wonderful ideas to inspire members to become more involved again, to bring back a sense of belonging through fun meeting nights. Something that had been forgotten seems to be that this organization is built on volunteers. Many of the meetings are geared towards work, work, and work. One club in our Zone will be bringing in an instructor for Yoga for one meeting. This club has many seasoned members and a handful of young members, Yoga will be an excellent way to bring them together.

CF/SERVICE

The Kinette clubs in Zone F have done well over the years when it's come to donations and fundraisers for Cystic Fibrosis. The Kinette Club of London is exploring a new fundraiser this year that will take place in the CF month, May. They will be focusing not only on raising money, but more importantly, on raising awareness within the community. I am expecting great things from this project. In the way of Service, the Kinette Club of Simcoe will be busy with Friday the 13th in Port Dover. This is a project that they have done for many years and proves time and again to be a real success for them.

“Together we’re Bettering our Communities and Changing Lives”

ZONE EVENTS

This year Graham, I and our Zone F Team have agreed that education should be a focus. To ensure this we will be providing the first of many Club inter-meetings this fall. Hosted by the Kinsmen Club of Dorchester, will be a Club Executive Educational Seminar. We will be discussing the many positions on an executive board as well as good leadership skills. There will also be a Presidents Round Table later in the year and a minimum of 2 inter club socials.

I am grateful to be a part of such a great District Team and I am so excited for the year to come. Thank you again.
